Profile

Motivated and detail-oriented Bachelor of Technology student in Computer Science with a strong foundation in Full Stack Web Development. Proficient in HTML, CSS, JavaScript, Python, Django, and Bootstrap with hands-on experience in building scalable and user-centric web applications. Passionate about solving real-world problems and learning emerging technologies. .

Education

Shri Vaishnav Vidyapeeth Vishwavidyalaya <i>Bachelor of Technology (B.Tech) in Computer Science & Engineering</i> – Current CGPA: 8.43	2022 – 2026 <i>Indore, MP</i>
Christu Jyoti Convent Senior Secondary School, Ujjain (CBSE) <i>Higher Secondary (12th), Mathematics</i> – Percentage: 69.6%	2021 – 2022 <i>Ujjain, MP</i>
Christu Jyoti Convent Senior Secondary School, Ujjain (CBSE) <i>Class (10th)</i> – Percentage: 81.16%	2019 – 2020 <i>Ujjain, MP</i>

Technical Skills

- **Programming Languages:** Python, HTML, CSS, JavaScript
- **Databases:** MySQL
- **Tools & Version Control:** Git, GitHub
- **Frameworks:** Django, Bootstrap
- **Soft Skills:** Communication, Presentation, Time Management, Leadership
-

Experience

- | | |
|---|--------------------------|
| Full Stack Developer Intern – Dhee Coding Lab, Bangalore | 10/2025 – Present |
| <ul style="list-style-type: none">• Receiving hands-on training in full-stack development using Python, JavaScript, HTML, CSS, and MySQL.• Working on backend logic using Python and performing CRUD operations with MySQL.• Gaining experience with real-world development workflows, version control, and best coding practices.. | |

Projects

Doctors' Appointment Project/Doc.Point

Technologies used: HTML, CSS, JavaScript, Python, Bootstrap, and Django Framework

This project aimed to develop a user-friendly, responsive, and secure Doctor's Appointment System to streamline the scheduling process between patients and doctors. The frontend was implemented using HTML, CSS, JavaScript, and Bootstrap to create an intuitive user interface. Django served as the backend framework, with SQLite as the database to store user credentials, doctor profiles, appointment data, and patient details.

Personal Portfolio Website

Technologies Used: HTML, CSS, JavaScript, Bootstrap

I designed and developed a responsive Personal Portfolio Website to showcase my skills, projects, and achievements as web developer. Built entirely using HTML, CSS, JavaScript, and Bootstrap, the website reflects a clean and modern design with interactive elements to enhance user engagement.

Mental Health Detection System – Mind Bridge (Voice & Face Analysis + Chatbot)

Technologies: Flask, MongoDB, Deep Learning

Built an AI-based system for voice, face, and text-based emotion analysis (multi-model mental health detection) integrated with a chatbot to provide mental health insights and support.

Certifications & Achievements

I has successfully achieved student-level certification for different courses by IBM and NPTEL:

- Database Management course completion certified by IBM and NPTEL.
- Cloud Computing course completion certified by IBM and NPTEL.
- Python for Data Science course completion certified by IBM.
